ABOUT SOGCE 2027

From Vision to Value: Delivering Sabah's Energy Future
The Sabah International Oil, Gas & Energy Conference & Exhibition (SOGCE) is Sabah's established oil, gas and energy industry platform, bringing together policymakers, industry leaders, operators, investors, technology providers, service companies, academia and energy professionals from Malaysia and beyond.

Since its inception in 2012, SOGCE has evolved alongside Sabah's energy industry, State priorities and global energy developments. As Sabah enters a new phase of energy and industrial development, SOGCE 2027 marks the next chapter of this journey — with a stronger international outlook and a sharper focus on delivery, investment, value creation and economic development.

From Vision to Value
Sabah has articulated a clear strategic direction through initiatives and roadmaps covering energy security, downstream development, OGSE, renewable energy, local participation, infrastructure and investment.

The opportunity now is to translate these ambitions into projects, partnerships, investments, businesses, capabilities and sustainable economic value for Sabah.

Under the theme "From Vision to Value: Delivering Sabah's Energy Future," SOGCE 2027 will bring government, industry and investment communities together to examine what needs to happen next — and how Sabah can move from strategic vision to practical implementation.

The conference will look beyond individual sectors to examine the interconnected energy ecosystem, including oil and gas, downstream development, LNG, petrochemicals, electricity, renewable energy, digitalisation, decarbonisation, energy infrastructure, investment and the development of local industry capability.

A Stronger International Outlook
The introduction of "International" into the SOGCE name reflects the natural evolution of the conference and its growing connections with the wider energy community.

While proudly rooted in Sabah, SOGCE 2027 will strengthen its role as an international meeting point connecting Sabah with Malaysia, ASEAN, Borneo and the global energy industry.

For international companies and investors, SOGCE provides a gateway to understand Sabah's energy landscape, policies, projects and emerging opportunities.

For Sabah and Malaysian businesses, it creates access to international markets, technologies, expertise, investment and strategic partnerships.

A Platform for Business and Economic Development
SOGCE 2027 is designed not only for knowledge exchange, but as a business and investment platform where ideas can progress into opportunities and opportunities can progress into partnerships.

The conference will facilitate dialogue between government, regulators, energy companies, investors, financial institutions, technology providers and local OGSE businesses, while the exhibition provides a marketplace for companies to showcase their capabilities, technologies, products and services across the energy value chain.

SOGCE encourages companies to use the platform beyond the official programme — to meet clients, conduct business discussions, establish partnerships, explore investment opportunities and create new market connections.

Two Days. One Strategic Conversation
Day 1 — From Vision to Opportunity

The first day will focus on Sabah's strategic direction and the opportunities emerging from its energy and industrial ambitions.

High-level discussions will bring together the State and Federal Governments, PETRONAS, state energy entities, regulators, operators, investors and industry leaders to explore policy implementation, investment, downstream development, infrastructure, local value creation and Sabah's position within the wider regional energy landscape.

A flagship Sabah Energy Leaders' Roundtable will bring key decision-makers together around one central question:
How do we translate Sabah's energy vision into measurable economic value?

Day 2 — From Opportunity to Value

The second day will focus on implementation, innovation, resilience and the capabilities required to deliver Sabah's energy transformation.

Discussions will examine energy resilience and crisis readiness, digitalisation and AI, Physical AI and robotics, decarbonisation, carbon management and Bioenergy, local OGSE competitiveness, upstream and deepwater opportunities, infrastructure and technology adoption, and the future workforce.

The emphasis will be on practical solutions, investable opportunities, partnerships and capabilities that can support real-world implementation and strengthen Sabah's ability to respond to a rapidly changing energy landscape.

Beyond the Conference
SOGCE is more than its conference sessions.

The exhibition remains an integral part of the platform, connecting buyers, suppliers, technology providers, operators and service companies across the energy value chain.

SOGCE will also continue its established programmes designed to strengthen industry engagement, networking and talent development, including:
SOGCE Knowledge Hub — creating opportunities for exhibitors and industry experts to share knowledge, technologies and solutions.
Future Leaders Hub — connecting students and emerging professionals with industry leaders and future career opportunities.
SOGCE NexGen Energy Programmes — nurturing awareness, interest and future talent among young people.
SOGCE Networking Cocktail — providing an informal platform for relationship-building and business connections.
SOGCE Networking Golf — strengthening industry relationships and creating opportunities for meaningful business networking.
Industrial visit & Engagement programmes — providing participants with opportunities to experience Sabah's energy and industrial ecosystem (TBC)
B2B Hub
These initiatives reflect SOGCE's broader commitment to connecting people, developing talent, encouraging collaboration and creating business opportunities.

Where Sabah Meets the World
SOGCE 2027 seeks to strengthen Sabah's position not only as an energy-producing state, but as an emerging energy, investment and business-events destination.

By bringing together government, industry, investors, technology companies, professionals and the next generation of talent, SOGCE provides a platform where Sabah's ambitions can connect with international expertise, capital, technology and partnerships.

From Vision to Value.
From policy to projects
From projects to investment.
From investment to capability.
From capability to sustainable economic value.

SOGCE 2027 — connecting Sabah's energy future with the world.

14TH SOGCE2027
SABAH INTERNATIONAL OIL, GAS & ENERGY CONFERENCE & EXHIBITION

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 1, Thursday, 24 June 2027 @ Sipadan Hall 1, Level 4

Plenary & Strategic Focus

07:15 AM	**Registration, Networking & coffee**
08:15 AM	Arrival of Invited Guests: Government Representatives Captains of the Industries
08:30 AM	Arrival of VVIPs
08:45 AM	Arrival of Guest of Honour
08:50 AM	**Welcoming Address by:** Dolly Jimayol, Organising Chairperson
09:00 AM	**Opening Address by:** Guest of Honour
09:20 AM	**OPENING CEREMONY** Followed by Signing Ceremonies
09:50 AM	**Opening Keynote Address:** ***Sabah's Energy Future: From Strategic Vision to Economic Value*** By: PETRONAS (TBC) ***Narrative:*** *Sabah's energy journey has been shaped by decades of collaboration with PETRONAS, from the early development of the State's oil and gas industry to today's evolving energy landscape. This keynote will provide a strategic stocktake of PETRONAS' longstanding contribution and investments in Sabah, highlighting key developments and achievements to date, while looking ahead to how this collaboration can be strengthened and expanded into new areas, including clean and lower-carbon energy.* *Looking towards the medium and long term, the keynote will share PETRONAS' vision and strategic outlook for Sabah, including the opportunities emerging across the energy value chain as the State advances its energy and economic transformation. It will also explore how closer alignment between PETRONAS' strategic direction and Sabah's development planning and policy priorities can create greater clarity, confidence and transparency for industry and investors, helping to unlock new investments, partnerships, technologies and value-creation opportunities in Sabah's energy sector.*
10:10 AM	**Keynote Address 1:** ***Sabah's Energy Development Agenda: From Resources to Opportunities*** By Sabah Energy Corporation (TBC) ***Narrative*** *As Sabah advances its energy and economic transformation, the development of its energy resources, infrastructure and supporting ecosystem will be critical to unlocking new investment and industrial opportunities. This keynote will provide a strategic perspective on Sabah's energy development agenda, including the role of Sabah Energy Corporation in strengthening energy security, developing resources and infrastructure, and supporting the State's broader economic aspirations.* *The keynote will highlight key developments, emerging opportunities and strategic priorities across gas, downstream activities, power and renewable energy, while exploring how partnerships, investment and new value chains can translate Sabah's energy potential into tangible economic opportunities for the State and its industries.*
10:30 AM	**Keynote Address 2:** ***Global & ASEAN Energy Outlook The Energy Landscape Ahead: Where Does Sabah Fit?*** Uday Vir Singh, Managing Director & Partner, Boston Consulting Group

14TH SOGCE2027
SABAH INTERNATIONAL OIL, GAS & ENERGY CONFERENCE & EXHIBITION

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 1, Thursday, 24 June 2027 @ Sipadan Hall 1, Level 4
Plenary & Strategic Focus

Narrative:
The global energy landscape is undergoing significant structural change as the energy transition reshapes markets, investment priorities and industry strategies. Across ASEAN, governments and industry are navigating the need to balance energy security, affordability and accessibility with the transition towards lower-carbon energy, while rising demand from urbanisation, industrialisation, digital infrastructure, AI and advanced manufacturing is creating new opportunities across the energy value chain.

Against this evolving backdrop, the keynote will explore how Sabah can position itself within the wider Borneo and ASEAN energy landscape by leveraging its natural resources, strategic geographical position and connectivity. It will highlight emerging opportunities across gas and downstream development, renewable energy, grid and infrastructure, emerging technologies, energy-intensive industries and regional connectivity, while examining the conditions needed to attract investment, develop new value chains and translate Sabah's energy potential into sustainable economic value.

10:50 AM **Networking Coffee Break** * VIP Brunch * Followed by Exhibition Tour by Guest of Honour

11:10 AM **Strategic Energy Briefing:**

Session Title - *Sabah Energy Direction*
Session Subtitle - From Strategic Vision to Economic Value
By Energy Commission of Sabah (TBC)

Session Narrative
Sabah has established a clear strategic direction for its energy future through SE-RAMP 2040 and other State and national initiatives covering energy security, industrialisation, downstream development, renewable energy, energy transition and economic growth.

This strategic briefing will provide delegates with a clear understanding of Sabah's energy priorities, opportunities and enabling conditions, and what needs to happen to translate strategic direction into practical implementation, investment and measurable economic value.

11:40 AM **Strategic Plenary 1:**

Session Title - *Sabah's Energy & Industrial Opportunity*

Moderator:
Ts Syed Saggaf Syed Ahmad, Regional Director, Asia Pacific, Energy Industries Council

Panel Speakers:
MiNDET (TBC)
Energy Commission of Sabah (TBC)
PETRONAS (TBC)
Sabah Energy Corporation (TBC)

Session Narrative
Following the Sabah Energy Direction briefing, this Strategic Plenary moves the conversation from strategic direction to opportunity.

Sabah's energy future presents opportunities across gas, downstream development, industrialisation, infrastructure, logistics, energy-intensive industries and emerging energy systems.

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 1, Thursday, 24 June 2027 @ Sipadan Hall 1, Level 4

Plenary & Strategic Focus

The discussion will examine what Sabah can build, attract and deliver, and what is required to translate these opportunities into commercially viable projects, investment, partnerships and long-term economic value.

11:40 AM ★ **SABAH ENERGY LEADERS' ROUNDTABLE**

From Roadmaps to Results: Aligning Priorities, Partnerships and Investment
By Invitation | Closed-Door Executive Conversation | Parallel Session

Moderator:
Dr. Firdausi Suffian, Associate Professor, Universiti Teknologi Mara (UiTM) Sabah.

Potential Participants:
Sabah Economic Planning Unit or SMJ Secretariat
Ministry of Industrial Development, Entrepreneurship & Transport Sabah
Ministry of Economy, Malaysia, Energy Division
Malaysia Petroleum Resources Corporation
PETRONAS
Shell
ConocoPhillips
Velesto Energy
Hibiscus Petroleum
Sabah Energy Corporation
Energy Commission of Sabah
Sabah Electricity
SMJ Energy
Invest Sabah Berhad
Malaysian Oil, Gas & Energy Services Council
Sabah Oil & Gas Service Council
Chartered Institute of Logistics and Transport (CILT) Malaysia Sabah Section

Session Narrative
The Sabah state government has laid down roadmaps and various enablers and ecosystems that include policy and regulatory support as well as targeted infrastructure readiness to drive the state's energy and industrial development to the next phase/level of growth.

This has opened up business-building opportunities to spur new investments and project undertaking, as well as promoting collaboration and partnership among the local industry players especially those from the OGSE fraternity.

Turning these opportunities into revenue generating assets requires closer alignment between government's development priorities and industry needs and underpinned on the right capabilities and techno-commercial capacity to deliver the expected outcome.

Convened by Midas Events Management alongside SOGCE 2027, this executive RoundTable brings together senior government policymakers and industry experts to engage in intellectual discourse that will generate actionable solutions and recommendations to achieve its intended objectives.

The discussion will also focus on translating Sabah's energy roadmaps into tangible economic value, strengthening partnerships and expanding opportunities for Sabah-based businesses.

12:40 PM **Networking Lunch** (For conference delegates)

14TH SOGCE2027
SABAH INTERNATIONAL OIL, GAS & ENERGY CONFERENCE & EXHIBITION

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 1, Thursday, 24 June 2027 @ Sipadan Hall 1, Level 4

Plenary & Strategic Focus

01:10 PM **Networking Lunch** (For RoundTable participants)

02:00 PM **Strategic Plenary 2:**

Session Title - *Downstream & Industrialisation*
Session Subtitle - From Resources to Industry: Unlocking Sabah's Downstream Value Chain

Moderator:

Panel Speakers:
SOGDC (TBC)
PETRONAS (TBC)
Sabah Energy Corporation (TBC)
Federation of Sabah Industries member company (TBC)
Siti Halimaton Mohd. Rejab, Director, Chemical & Advanced Material Division, Malaysian Investment Development Authority

Session Narrative
The real measure of Sabah's energy opportunity is not simply how much resource it produces, but how much value it can retain and create within Sabah.

Downstream development can transform natural resources into industrial activity, manufacturing, jobs, technology, local supply chains and long-term economic value. This session explores the opportunities to move Sabah further along the value chain and strengthen its position as an emerging energy and industrial hub.

03:15 PM **Industry Panel 1:**

Session Title - *Gas & Energy Security*
Session Subtitle - Gas as the Foundation for Sabah's Next Industrial Wave

Moderator:
Rosman Hamzah, Managing Director, ROSERGY Consulting

Panel Speakers:
PETRONAS (TBC)
Sabah Energy Corporation (TBC)
Energy Commission of Sabah (TBC)
Malaysian Gas Association (TBC)
Gas Malaysia (TBC)

Session Narrative
Reliable, affordable and secure energy supply is fundamental to Sabah's industrialisation. As the State develops downstream industries and attracts new energy-intensive investments, gas will remain an important part of the energy equation.

This session examines how Sabah can strengthen gas security, supply and infrastructure while balancing power generation, industrial demand, affordability and the longer-term energy transition. The discussion will explore what is needed to ensure gas can support Sabah's industrial growth and energy security.

04:15 PM **Networking Coffee Break**

14TH SOGCE2027
SABAH INTERNATIONAL OIL, GAS & ENERGY CONFERENCE & EXHIBITION

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 1, Thursday, 24 June 2027 @ Sipadan Hall 1, Level 4

Plenary & Strategic Focus

04:30 PM **Industry Panel 2:**

Session Title - *Energy Infrastructure, Logistics & Investment*
Session Subtitle - Building the Backbone for Sabah's Energy & Industrial Future

Moderator:
Ts. Daniel Doughty, FCILT, APR, Industry Strategist, Chairman, CILT Malaysia Sabah Section

Panel Speakers:
Dr. Ts. Hj. Muhtar Suhaili, Group Chief Executive Officer, EPIC Berhad

Session Narrative
Energy and industrial projects require more than investment and technology. They depend on the infrastructure and logistics ecosystem needed to move people, equipment, materials and energy efficiently from source to project, and from project to market.

Ports, marine services, vessels, heavy lifting, project cargo, transportation, warehousing and offshore logistics are strategic enablers of Sabah's energy and industrial ambitions.
This session brings together infrastructure, logistics, marine and transport stakeholders to examine what Sabah needs to build the backbone for its next phase of development.

05:35 PM **SOGCE Networking Cocktail, Promenade, Level 2**
(All Speakers/Moderators/Panelists/Special Guests/Conference Delegates are invited)

14TH SOGCE2027
SABAH INTERNATIONAL OIL, GAS & ENERGY CONFERENCE & EXHIBITION

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 2, Friday, 25 June 2027 @ Sipadan Hall 1, Level 4

Plenary & Strategic Focus

07:30 AM **Morning Networking & Coffee**

09:00 AM **Industry Panel 3: Upstream & Deepwater**

Session Title - *Sabah's Upstream Future: From Resource Potential to Production Value*
Session Subtitle - Investment, Deepwater Development, Asset Optimisation & Local Value Creation

Moderator:

Panel Speakers
PETRONAS (TBC)
Shell (TBC)
Aker Solutions (TBC)
ConocoPhillips (TBC)
Velesto (TBC)

Session Narrative
Sabah's oil and gas resources remain an important foundation of the State's economy. Supported by strategic economic planning and an enabling investment environment, new exploration opportunities, deepwater developments, mature-field optimisation and technology deployment can contribute to the next phase of upstream growth.

Realising this potential requires more than resource development alone. It calls for effective collaboration among government, operators, technology providers and the wider oil, gas and energy services and equipment (OGSE) sector to translate investment and project opportunities into lasting economic value for Sabah.

For Sabah-based OGSE companies, this presents both an opportunity and a responsibility to continually strengthen technical and technological capabilities, workforce competency, operational performance and competitiveness to meet evolving industry requirements and participate more effectively across the upstream value chain.

With sustained leadership support, continued investment and a capable, competitive local industry, Sabah can strengthen local participation, deepen industry capabilities and position its upstream sector for its next phase of growth.

10:00 AM **Industry Forum:**

Sabah OGSE Forum
From Local Participation to Regional Competitiveness

Moderator:
MPRC (TBC)

Panel Speakers:
PETRONAS vendor management (TBC)
MiNDET(TBC)
Emas Dinamik Sdn Bhd (TBC)
Perbadanan Usahawan Nasional Berhad (TBC)
International OGSE company (TBC)

Session Narrative
Sabah's OGSE sector is at an important transition point. The objective is no longer simply to increase local participation, but to build companies with the capability, capital, technology and partnerships to compete at a regional level.

This session explores how Sabah's OGSE ecosystem can move from participation to capability, and from capability to regional competitiveness and scalable business value. The discussion will examine what local companies need to grow, scale and participate more effectively in Sabah's evolving energy and industrial landscape.

14TH SOGCE2027
SABAH INTERNATIONAL OIL, GAS & ENERGY CONFERENCE & EXHIBITION

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 2, Friday, 25 June 2027 @ Sipadan Hall 1, Level 4

Plenary & Strategic Focus

11:15 AM	**Networking Coffee Break & Exhibition Visit**
11:35 AM	**Technology & Industry Panel:**

Session Title - *Digital Energy, Physical AI & Intelligent Automation*
Session Subtitle - From Digital Intelligence to Physical Execution

Moderator:
Dr Rayner Pailus, Senior Lecturer, Faculty of Computing & Informatics, Universiti Malaysia Sabah

Panel Speakers:
Beena Sharma (TBC), Co-Founder & Chief Executive Officer, CCU International, Scotland.
YOKOGAWA (TBC)

Session Narrative
Digitalisation has already transformed how the energy industry collects data, manages assets and makes decisions. The next frontier is moving intelligence beyond the screen and into the physical world.

Physical AI, robotics, autonomous systems and intelligent automation are creating new possibilities for energy and industrial operations, particularly in hazardous, remote, repetitive and complex environments. For Sabah, the opportunity is not simply to adopt emerging technologies, but to identify where they can deliver measurable gains in safety, efficiency, productivity and operational resilience.

How can technology improve the way we operate? What can machines and AI do differently?

12:35 PM	**Networking Lunch**
02:00 PM	**Industry Panel 4:**

Session Title - *Energy Resilience & Crisis Readiness*
Session Subtitle: Preparing for the Next Disruption: Geopolitics, Cyber Risk, AI & Economic Uncertainty

Moderator:
Ts. Amir Hisham Albakri, Executive Committee, Malaysian Oil, Gas & Energy Services Council, Director of Sales & Business Development, Kemuncak Lanai Sdn Bhd

Panel Speakers:
Energy-sector leader — operational resilience
Cybersecurity / critical infrastructure expert — AI and OT threats
Economist / investment strategist — macroeconomic and investment uncertainty
Geopolitical / strategic-risk expert — conflicts, energy security and regional risk
Supply-chain / logistics leader — physical resilience

Session Narrative
The energy industry is entering an era of greater uncertainty, where geopolitical tensions, economic volatility, cyber threats, AI, supply-chain disruption and changing policy environments can interact and amplify one another.

For Sabah, delivering its energy and industrial ambitions will require more than investment and infrastructure. It will require the ability to anticipate disruption, respond quickly and maintain critical operations.

This session examines how government, industry and investors can strengthen energy security, cyber resilience, business continuity, supply-chain resilience and investment confidence.

Are Sabah's energy and industrial systems prepared for the next disruption — whatever form it takes?

14TH SOGCE2027
SABAH INTERNATIONAL OIL, GAS & ENERGY CONFERENCE & EXHIBITION

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 2, Friday, 25 June 2027 @ Sipadan Hall 1, Level 4

Plenary & Strategic Focus

03:00 PM	**Networking Coffee Break**
03:15 PM	**International Industry Panel:**

Session Title - *Decarbonisation & Emerging Energy*
Session Subtitle: The New Energy Economy: Carbon, Bioenergy, CCS, & Industrial Decarbonisation

Moderator:
TNB (TBC)

Potential Panel Speakers:
ADNOC Group (TBC)
PETRONAS (TBC)
JERA Asia (TBC)
BURSA Malaysia (TBC)
UMS (TBC)

Session Narrative
As the global energy system evolves, decarbonisation is becoming a driver of new industries, technologies, investment and economic value. For Sabah, the opportunity extends beyond reducing the carbon intensity of existing activities to developing new value chains around carbon management, bioenergy, carbon capture and storage (CCS) and industrial decarbonisation.

With Sabah pursuing energy security, industrialisation and sustainable growth, this session explores how decarbonisation can translate into commercially viable and investable opportunities. The discussion will examine the technologies, policies, infrastructure, markets and partnerships needed to build Sabah's new energy economy.

04:15 PM **Leadership/Workforce Dialogue:**

Session Title - *Future Workforce*
Session Subtitle: Human + Machine: Building Sabah's Energy Workforce for the Next Decade

Moderator:
Ts. Faiz Latip, Founder and Chief Executive Office, Semarak Training

Potential Panel Speakers:
TalentCorp Malaysia
FRAGOMEN
Universiti Teknologi PETRONAS
Amirsoleiman Esfandiari, Founder and Director, Techcopter Ltd, United Kingdom

Session Narrative
Technology will continue to play a crucial role as both enabler and driver that will push the Sabah energy industry to the next phase of growth.

To secure and sustain current and future value creation from the various energy related projects and initiatives in Sabah, the expected end-state should reflect the transformative elements that combine technology and human talents.

Sabah will need to develop the right expertise with technical, digital and leadership capabilities to complement the increasingly complex nature of the operations as driven by AI, big data analytics, and other intelligent software and hardware.

This dialogue looks beyond conventional/traditional skills development to explore human-machine collaboration, reskilling, TVET, certification, AI and emerging industrial roles.

It will explore how government, industry players, educational institutions and technology providers can collaborate to build a future-ready workforce that is adaptable, technologically competent and capable of sustaining Sabah's energy and industrial growth.

Conference Programme

FROM VISION TO VALUE: DELIVERING SABAH'S ENERGY FUTURE

Day 2, Friday, 25 June 2027 @ Sipadan Hall 1, Level 4

Plenary & Strategic Focus

Key Discussion Question:

What must people learn and do differently to remain relevant, productive and competitive in an increasingly technology-driven energy industry?

05:15 PM **Sabah Energy Leaders' Key Takeaways**

A concise presentation of the key non-confidential outcomes and recommendations from the leadership discussion.

Moderator:
Dr. Firdausi Suffian, Associate Professor, Universiti Teknologi Mara (UiTM) Sabah

05:30 PM **Conference Closing Remarks**

05:40 PM **End of Day 2 Session**

Signature Side Events

- Knowledge Hub – Where Ideas Power Tomorrow - Integrated into Day 1 & Day 2
- Future Leader Hub - Talent & Youth Initiatives - Integrated into Day 1 & Day 2
- Young Professionals Programme – integrated into Day 1 & Day 2
- SOGCE Networking Golf – 26 June 2027 (Post - conference)
