SOGCE - SPE - KL/Sabah Section Energy Career Aspirations Networking Series & Energy4Me Programmes

ECANS is a career development and networking initiative for students and young professionals in the energy sector.

It aims to:

- Provide insights into industry trends and help participants explore career paths and build relevant skills.
- Foster networking opportunities to encourage collaboration and knowledge-sharing.
- Connect participants with experienced mentors for career guidance and support.

ECANS was participated by 93 participants (68 university students and the rests were mentors, organisers, and volunteers), and this programme was sponsored by MEM

Energy4me is an educational program that educates the public about energy and puts a face on the industry. Energy is a critical issue worldwide, and SPE believes face-to-face contact is the ideal way to spread the word about energy conservation, the future of the oil and gas industry and its impact on the planet.

Energy4Me was participated by 78 participants (58 secondary students, and the rests were mentors, Organisers and volunteers) and this programme was also sponsored by MEM.

B2B Hub @ SOGCE 2025

The B2B Hub is a dedicated platform designed to connect industry players, exhibitors, and potential business partners ahead of the Sabah Oil, Gas & Energy Conference & Exhibition (SOGCE) 2025. It allows participants to schedule virtual pre-meetings and make arrangements for in-person business meetings during the event on 3-4 July 2025 at the Sabah International Convention Centre (SICC).

This initiative helps foster meaningful business engagements, enhance networking opportunities, and maximise ROI for all participants. There were 37 converted into meeting onsite and 79.4% were satisfied with their onsite experience and discovery.

Knowledge Hub @ SOGCE 2025

The Knowledge Hub is a new feature introduced at SOGCE 2025, designed to provide exhibitors with a 10-minute platform to present their products, services, and innovations through impactful and concise presentations.

Strategically located within the exhibition hall, the Knowledge Hub offers exhibitors a valuable opportunity to boost visibility and engage directly with industry peers, potential clients, and visitors in a focused and interactive setting. It also enhances the attendee experience by delivering quick insights into emerging technologies, solutions, and business offerings within the oil, gas, and energy sector.

This initiative has already drawn strong interest — particularly among OGSE exhibitors — as it adds value to their participation, while also capturing the attention of visitors. Looking ahead, the programme will be further enhanced to encourage even greater participation from both exhibitors and attendees, making it an integral part of future SOGCE editions.
